

# ACQUISITION PORTFOLIO AND PROGRAM MANAGEMENT

## STREAMLINED ACQUISITION, OPTIMIZED OUTCOMES

SPA's Acquisition Portfolio and Program Management capability ensures government agencies achieve their strategic goals through optimized acquisition planning, precise execution, and disciplined oversight. SPA gives portfolio and program managers the transparency and critical information they need to keep programs moving forward.

## PROVIDING CAPABILITIES THAT DRIVE MISSION SUCCESS

### INTEGRATED DATA VISIBILITY

SPA provides comprehensive management across every phase of the acquisition lifecycle, integrating rigorous analysis with advanced tools to deliver results-driven support:

- Consolidate data from diverse sources, such as EVM/Schedule, technical requirements, risk registers, obligations, and expenditures
- Get clear visibility of relationships from strategic overviews down to the action officer level
- Facilitate accurate and timely forecasting of technical, cost, and schedule performance

### ACCELERATED DECISION-MAKING

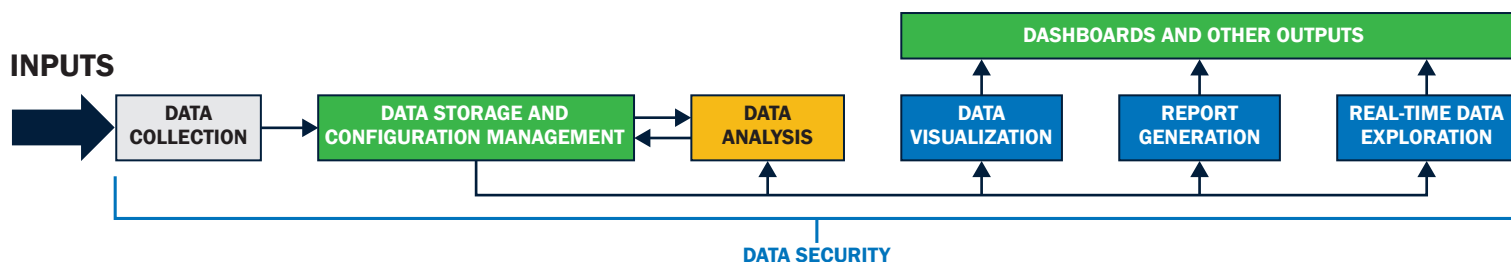

SPA helps government agencies optimize their acquisition processes, balance competing priorities, and achieve desired outcomes in a systematic and controlled manner.

- Real-time data exploration
- AI-driven forecasting and effective recommendations
- Ability for program managers to instantly assess “what-if” scenarios, reducing decision-making timelines from days to minutes
- Provide modeling tools for detailed analysis and what-if analysis

### TAILORED INSIGHTS AND INTEGRATION

Program managers have immediate access to critical insights that are essential for maintaining program effectiveness, execution and mission success.

- Highly tailorable approach to meet specific program office requirements
- Integration with client-preferred software and commercial tools
- Tailored visualization dashboards and reports

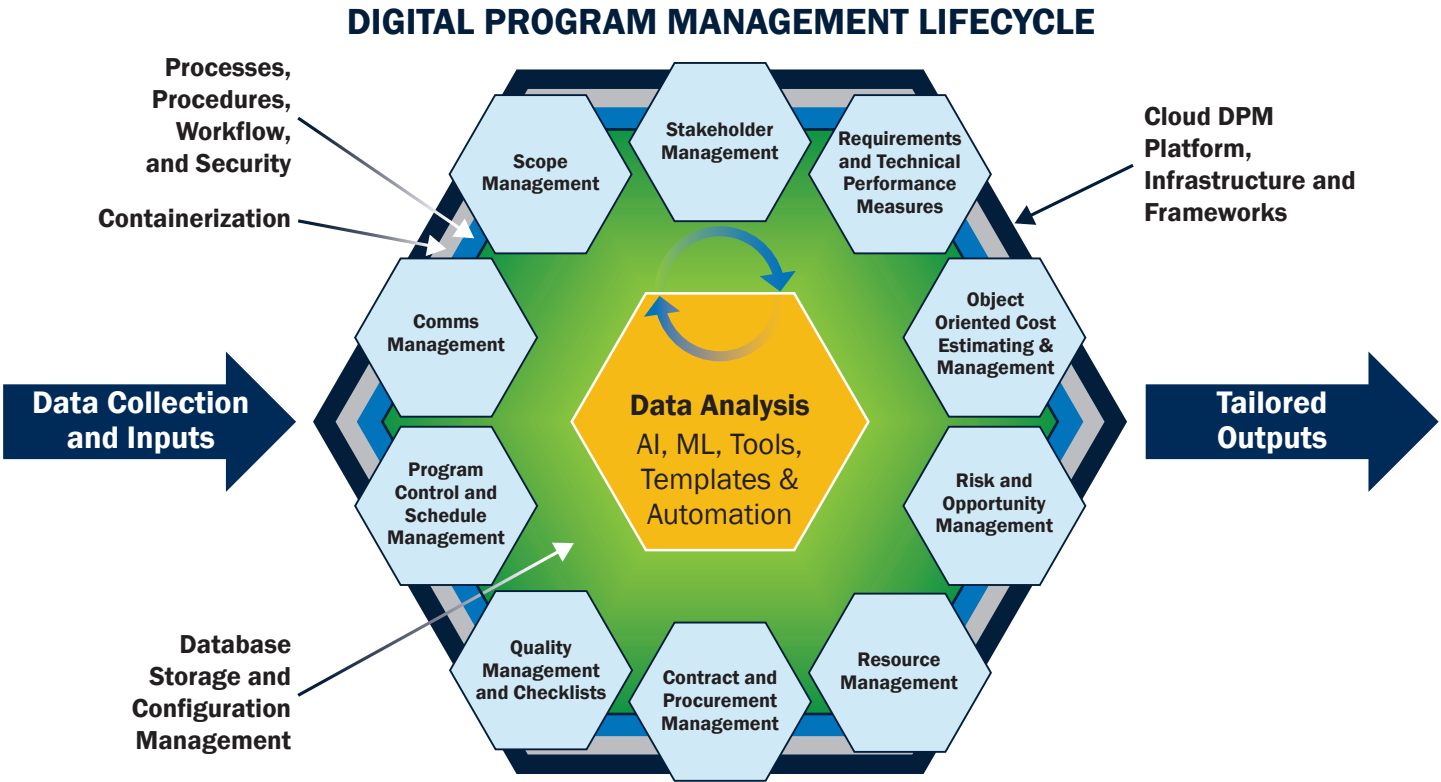

This illustration shows a high-level system block diagram ingesting data from multiple sources, structuring it into a common secure repository, then processing the data into actionable information.

DATA-DRIVEN ANALYSIS FOR OPTIMIZED PORTFOLIOS AND ENHANCED MISSION OUTCOMES

SPA uses modern practices and digital toolsets to reduce risk and help ensure program success. Our experienced analysts deliver data-driven analytical insights by assessing the performance, risks, and resource allocation of each program as well as integrating them into a cohesive portfolio that maximizes value and effectiveness.

- Acquisition Planning and Execution
  - Analysis of Alternatives
  - Budgets and Program Controls
  - Capital Planning
  - Cost Research, Estimating, and Engineering
- Cost, Schedule, and Performance Risk Mitigation
  - Cybersecurity Assurance
  - Digital Program Management (DPM)
  - EVM and Schedule Analysis
  - Program Analysis

WHY CHOOSE SPA FOR ACQUISITION MANAGEMENT?

→ <b>Proven Track Record</b>	Over 50 years managing high-profile acquisition programs successfully for defense and federal agencies.
→ <b>Sophisticated Analytical Capabilities</b>	In-depth, cross-functional data analytics revealing complex relationships between risk, budget execution, and performance.
→ <b>Faster Decision Making</b>	Rapid forecasting capabilities help you make informed, confident decisions timelines from days or months to mere minutes.
→ <b>Tailored Flexibility</b>	Adaptive tools and methodologies tailored to specific client needs and existing workflows.
→ <b>Enhanced Operational Efficiency</b>	Improved resource utilization, minimized risks, and streamlined operations for superior program outcomes.

DECISION SUPPORT FOR NATIONAL SECURITY

Systems Planning & Analysis, a leading global provider of data-driven analytical insights supporting national security objectives, provides deep domain expertise, problem-solving capabilities, and a results-driven approach to program lifecycles, reaching a wide spectrum of market areas.

With over 50 years of experience, SPA's portfolio of differentiated capabilities and tools delivers comprehensive support to the most critical programs for combatting threats, influencing long-term strategic priorities, and shaping policies at the highest levels.
